

Technical Memorandum

Date : February 28, 2012

RE: D-Blaze® - VOC and Urea formaldehyde content

To whom it may concern

D-Blaze® is a water-borne fire retardant formulation that contains phospho ammonium boron compounds. D-Blaze® may be used to pressure treat lumber and plywood for interior use. D-Blaze® does not contain any volatile organic compounds or urea or formaldehyde as an active ingredient or inert compound.

A handwritten signature in black ink, appearing to be "KJ Archer", followed by a long horizontal line extending to the right.
